

### Approvals, markings and their importance

**British Standard**  
**BS 476-20**

**BS 476-20:1987**  
Fire tests on building materials and structures. Method for determination of the fire resistance of elements of construction (general principles).

**BS EN13501-1**

**EN13501-1:2007+A1:2009**  
Fire classification of construction products and building elements. Reaction to Fire.

**BS EN13501-2**

**EN13501-2:2007+A1:2009**  
Fire classification of construction products and building elements. Resistance to Fire.

**BS EN1366-3: 2004**

**EN1366-3:2004**  
Fire resistance tests for service installations - Penetration seals.

**BS EN1366-4: 2006**

**EN1366-4:2006**  
Fire resistance tests for service installations - Linear joint seals.

**DIN**

**DIN 4102:Part1**  
Fire behaviour of building material and elements - Part 1: Building materials, concepts.

**American Standard**  
**ASTM E 84 (UL 723)**

**ASTM E 84**  
Test method for Surface Burning Characteristics of Building materials. The test evaluates the spread of flame along the surface of the material. It is not a resistance test.

**American Standard**  
**ASTM E 1966 (UL 2079)**

**ASTM E 1966**  
Test method for Fire-Resistive Joint Systems. This test is used to evaluate the performance of a joint after a cyclic movement test and fire exposure test.  
UL 2079 - equivalent.

**American Standard**  
**ASTM E 814 (UL 1479)**

**ASTM E 814**  
Test method for Fire Tests of Through Penetrations Fire Stops. This test is used to evaluate the performance of a firestop system, following fire exposure a hose stream test is conducted.  
UL 1479 - equivalent.

**BS EN ISO 10140**

**BS EN ISO 10140:2010**  
The laboratory measurement of airborne sound insulation of building elements.

**BS EN 1026**

**BS EN 1026: 2000**  
Air permeability test method.

**BS EN 1027**

**BS EN 1027: 2000**  
Water permeability test method.

**CE marking** is a declaration by the manufacturer (through verified testing) that the product meets all the appropriate provisions of the relevant legislations implementing certain European Directives. ETA - The European Technical Assessment provides information about the construction product to be declared in relation to its essential characteristics.

**UL** is an abbreviation for Underwriters Laboratories Inc. which is an independent, not for profit product safety testing and certification organisation.

**UL-EU** Mark is intended for use on products destined for the European marketplace.

**FM Approvals** is an international leader in third-party certification and approval of commercial and industrial products.

**Certifire** is an independent Third Party Certification organisation. The scheme undertakes requirements such as the manufacturing of products under a Third Party Quality Management System, Independent Audit Testing, and a Comprehensive Field of Applications document based on careful chosen test that helps to ensure the products and systems are used within their approval scope.

**RFS 640**  
**Rapid Fire Seal**  
Joint spray for Façade Curtain wall application

**FFSC**  
**Firestop Compound**  
Structural fire resistant seal for floors and walls.

\*Refer catalogue for details

**FIAM**  
**Fire rated sealant**  
Sealants for top of wall joints & through penetration.

\*Refer catalogue for details

**FFC**  
**Fire Collar**  
Collar for sealing a wide range of combustible pipes passing through fire rated walls and floors.

**FCPS**  
**Coated Panel System**  
Firestop coated panel system for multiple service penetrations

**UFS 310**  
**Universal Firestopping Sealant**  
Suitable for metallic, non-metallic services and construction joints

**FiPW**  
**Intumescent wrap**  
For sealing flammable Pipes passing through fire rated walls and floors.

**FiPP**  
**Intumescent Putty Pad**  
Most flexible partition assemblies, Fire and insulation resistance for Plastic and metal electrical outlets

**FCFcl**  
**Cavity Firestop Clad**  
Designed to protect the building void between the inner and outer construction elements

**Firestop Foam**  
A single component filler foam with effective fire resistance for fire doors

**Foam Barrier System PLUS**  
Firestop Foam and Firestop Block for use in a System or individually. ETA approved and UL listed applications.

**FCC**  
**Cable Coating**  
Ablative firestop coating design to prevent the propagation of fire along internal and external electrical cable

**fischer Building Materials India Pvt. Ltd.,**  
Level IV and Level V,  
Unit No. 401 and 501, Prestige Garnet,  
Ulsoor Road, Bangalore, Karnataka,  
India - 560042.  
Phone - 080-4151 1991/92/93
